Q21. Describe your team to a recruit:

Count	Percent		
6	100.00%		
Count	Percent		
1	16.67%		A close knit group of guys that does a lot together outside of mandatory team activities (such as travel and practice).
1	16.67%		Close-knit and inclusive. Fun to be a part of
1	16.67%		Team with a lot of potential but doesn't have the school backing it as much as it should.
1	16.67%		The Cross Country team is like a family. Most XC teams form a close bond, likely from the countless miles spent running and getting to know each other. We all have our differences but everybody does a great job coming together to unite under a common goal. Moreover, when not running, the team is incredibly supportive of each other in terms of both academic and personal affairs. The XC team at UWM will really become your home away from home, and your family, hopefully for a lot of years after you've hung the spikes up as well.
1	16.67%		We are a family that likes to focus and work hard toward achieving our common goal.
1	16.67%		We are not going to run you into the ground like big schools or WIAC schools do. Because our team is quite small, Jake has the ability to nurture everyone and basically has to if we are going to have a full team--he can't afford to go and injure even a quarter of the team. The training style here used to be really antiquated, but with Jake he has implemented a much more modern philosophy.

Q22. Do you have any additional comments regarding your ratings for your team?

Count	Percent		
3	42.86%		Yes (please explain)
Count	Percent		
1	33.33%		Coaches put in full time hours and aren't paid nearly as much as they should be. They're overworked and underpaid. This falls onto the team giving us poor opportunities compared to other schools since we're under staffed.
1	33.33%		Having to use a high school track for training is always going to be a deterrent for some athletes. The indoor facility is great, better than a lot of power five indoor facilities. The locker room is nothing special and could be made more attractive to recruits (especially

			when compared to basketball or soccer) - it looks no different from the locker rooms on the first floor.
1	33.33%		We would have different training staff every different week day in the spring. So when people got hurt they would have to reexplain the injury and get a new thing to do every day. There was no real plan developed to get them back healthy because they worked with someone different every day. Most of the fall there was no granola bars and milk was very spotty. This improved in the spring though.
4	57.14%		No

3	100.00%	
Count	Percent	
1	33.33%	
1	33.33%	 Not given things such as real winter jackets for Midwest track weather including the cold, rain or even snow.
1	33.33%	 There was very little issued gear this past year that was of good quality that we were able to keep. Additionally, for distance runners, receiving only two pairs of shoes is far below what we need in order to stay healthy. Distance runners will go through anywhere between three

and five pairs of shoes through a school year depending on mileage. This issue needs to be addressed in some fashion to ensure our athletes do not get hurt from wearing old shoes.

Count	Percent	
1	50.00%	 Great time at UWM - there isn't quite the "it" factor the some other schools have to draw people in. Being so close to Lake Michigan and downtown life really bring a lot of the allure to most students in my opinion. As far as athletic advisor- between Tiff, Claire, and Andy, they do an exceptional job and each helped me in different respects.

1	50.00%		While it has improved since my freshman year, I wish not so many people would wear other school's gear on campus.

1	16.67%		The one thing, if any, that Coach could improve on is post-meet meal ordering. I think it is much better than in years past, and I certainly am not one to complain about it, but some people just do not like having pizza. I'm speaking for what I hear from the whole group, and they don't always enjoy pizza on the bus ride home. I love it.
