29. Rate your overall experience with your head coach.	Below Average
30. What are your coach's strengths in your sport?	Good at representing ██████ to staff and outside media
31. Does your coach exhibit care and concern for your health and welfare?	no
If no, please explain.	When I was injured I felt as much less a part of the team than others. I also was given snarky remarks toward my injury leading me to believe my coach thought I was faking or soft so to speak
32. Does the team have respect for the Head Coach personally? Professionally?	no
Why?	█████ does not build trust within the team, ██████ extremely manipulative and that causes these ██████ not to respect ██████ because they do not feel the respect is given mutually
33. How is the morale on your team?	Team morale is good for the most part, we are a very close knit team and I think that is what has given us success.
34. Does your coach get the most out of the players?	no
35. Was the coach knowledgeable about the sport?	no
36. Was the coach available to you as needed?	no
If no, please explain.	The coaches seemed to be only on campus during practice times and other than that it was very hard to get in to see them
37. Are there any changes needed to improve the coach and the student-athlete relationship?	yes
If yes, please explain.	I believe that there should be a coaching change. I have never been treated this poorly by any adult authority figure and I am extremely

disappointed with how this behavior has been continued and allowed in this program.

If no, please explain.

██████████ could be very rude and there was no back and forth. When questions were asked they were immediately shot down and it caused a bad environment for learning and growing as players. ██████████ I do not think has the experience to be in the position she is in.

42. Are there any improvements you can recommend, to better the assistant coach(es)?

yes

If yes, please explain.

Again I think there should be a coaching change. I do not believe these coaches have the players best interest in mind. I think they are neglectful and sometimes detrimental to the mental health of ██████████ ██████████. Coaches are here to be a mentor and a figure of respect and authority to help facilitate the growth of ██████████ not just as players but as people and I think the entire staff failed and continues to fail at this.
