## Suggestions for the Athletic Director

[Print Comments](#)

"An ""athlete village"" that has been talked about in the past would continue to promote an inclusive ""family-like"" community; that would be amazing. \\\\ would also suggest to continue to work to foster and encourage strong team bonds	Improve grievance system to actually listen to athletes	Nothing. He's been an unbelievable leader for us!	Keep caring about us as individuals and teams. It means the world to us when you call us by name and know what is going on for us.	Look at social media and having support of all sports on the Illini Athletics Twitter would be great. A lot of sports do not get even close to equal representation on social media	The culture in compliance, within the athletes, trainers, sports nutrition, weight coaches, and school needs to change, to more the morale and direction we work in.
"I would suggest that [redacted] is encouraged to continue to LISTEN to her players. There is a reason that not a single senior wants to continue a relationship with Coach Perry after we graduate. The entire team loves each	Look into Irwin Academics and understand that not all students thrive in that type of environment. Coming from a person who had to log hours all four years. Utilizing tutors is different because my tutors were great for the most part. Just leaving my	i am still very close to my coaches from high school, and being a powerhouse in southern Illinois and St. Louis Metro area, recruits are being told not to sign with Illinois so long as [redacted] is the leader of this program. This is not because	Continue to keep standards high. People who truly belong to the University of Illinois will find their way here.	More emphasis should be placed on recognizing student athletes who are doing well in difficult majors more. Balancing engineering and a sport is extremely difficult.	
I love this school, I have been here for two years and has been an amazing experience. The only thing this place would need is to update all faculties to the big ten standard. Other than that maybe find a cool mascot because the shield is terrible and ugly. Sky's	Invest in programs that win and those that are consistent year in and year out.	Keep doing what you're doing.	Stop by team practices where we can interact rather than just at matches where we are competing and cannot say hi or interact in anyway.

## Athletic Trainer or Athletic Medicine Comments

[Print Comments](#)

Can Contact Athletic Trainer at Any Time

I have been able to utilize all aspects of the sports medicine team. They are extremely competent. I am grateful to have the access to these people because I know not all schools do. They have been extremely helpful while I have been on campus. They are great people and always genuinely want to help you any way they can.

Trainers, strength coach, and varsity room staff are exceptional.

We need more athletic trainers/student interns on our staff. One guy is not enough for 30+ athletes. Many of the negative aspects about [redacted] performance can be solved by giving him more help so he can focus on more serious injuries. Many days Jim has to see 10+ people in the training room and with the size of the room it is a glaring issue in that part of our program.

Comments About Sport  
Practices

██████████

Practice in this sport is almost fully dependent on training in the offseason; anyone that wants to be good will practice even if its voluntary.

As a ██████ athlete, training all year round is essential to be successful in the season, or you will be behind. Before coach ██████ the training was not adequate. But now, he pushes us to our limits and knows when to stop to avoid injury.

██████████

Coach ██████ threatens the team that things are optional but they really are not. She states "this is optional but i want to see who really is committed and who isn't".

"Nothing is ever ""voluntary"" , in or out of season"

Practice plans are not designed to include every individual. The starting lineup is decided in January and if you're not a ██████ in January, you will receive minimal reps if any reps at all for the entirety of the season. We have four hour practices yet not every person on the team gets ██████ it's a four hour practice. There is plenty of time for everyone to get reps.

"As a ██████, I feel as though our time is wasted by having to be at games an hour early fo ██████" when we do ██████ We are treated as managers..."

Only key starters are coached during practice. Others are neglected and not paid attention to decreasing their chances of success when they are called upon to perform in a game.

██████████

I don't blame anyone for sometimes feeling that voluntary practices are not voluntary. I (we) put a lot of positive pressure on myself (ourselves) to be our best and I think that is where the feeling stems from.

Suggestions for Athletic Director

[REDACTED]	<p>i am still very close to my coaches from high school, and being a powerhouse in southern Illinois and St. Louis Metro area, recruits are being told not to sign with Illinois so long as [REDACTED] is the leader of this program. This is not because of the school, or the DIA, or any negative experience I've had with athletes. But solely coach [REDACTED] Thank you.</p> <p>Nothing. He's been an unbelievable leader for us!</p>
[REDACTED]	<p>Improve grievance system to actually listen to athletes</p> <p>Look into Irwin Academics and understand that not all students thrive in that type of environment. Coming from a person who had to log hours all four years. Utilizing tutors is different because my tutors were great for the most part. Just leaving my apartment with no distractions to being surrounded by 100 or so people is extremely distracting.</p> <p>"I would suggest tha [REDACTED] is encouraged to continue to LISTEN to her players. There is a reason that not a single senior wants to continue a relationship with [REDACTED] after we graduate. The entire team loves each other, but the entire team also feels as if we are being out-coached. I would suggest that Josh evaluates the ""captain"" system tha [REDACTED] has (two coach-appointed team captains...)"</p> <p>"An ""athlete village"" that has been talked about in the past would continue to promote an inclusive ""family-like"" community; that would be amazing. \\I would also suggest to continue to work to foster and encourage strong team bonds and strong relationships between players/coaches. Not all coaches will be liked by everyone, but I believe that majority of a team should be able to 100% buy in to the coaches plan and program styles - similar to what the [REDACTED] team has going under the leadership o [REDACTED] Their coach is one of the most respectable people they all know and is an amazing role model for all of them. I wish I could graduate college and want to continue..</p>
[REDACTED]	<p>The culture in compliance, within the athletes, trainers, sports nutrition, weight coaches, and school needs to change, to more the morale and direction we work in.</p>
[REDACTED]	<p>Stop by team practices where we can interact rather than just at matches where we are competing and cannot say hi or interact in anyway.</p>

Suggestions for  
Athletic Director

Sport

Continue to keep standards high. People who truly belong to the University of Illinois will find their way here.

More emphasis should be placed on recognizing student athletes who are doing well in difficult majors more. Balancing engineering and a sport is extremely difficult.

Look at social media and having support of all sports on the Illini Athletics Twitter would be great. A lot of sports do not get even close to equal representation on social media

Keep caring about us as individuals and teams. It means the world to us when you call us by name and know what is going on for us.

Team Success

We do not have a [redacted] that's inside in a state where it's cold almost the whole season. The indoor football is used by other sports and not easily accessible. The stadium we play in is a joke around the conference. Small mid majors have way better facilities and harvest a better environment for getting better

Facilities upgrades

Our facilities are among some of the worst in the big ten. I am aware of the new performance center we are receiving in the near future but the "stadium" that we currently play in is subpar. No seat backs or chairs for fans does not encourage people to come back to games and no [redacted] seating takes away a huge component to the game. I feel like our home field does not intimidate teams like most other places that I have played in. Fixing that issue will bring in higher ranked recruits, more fans, and more money. Invest in our program and you will see a higher return than any other sport on this campus.

Our facilities are some of the worst in the Big Ten. We do not have an indoor hitting facility near our field which creates many challenges. Our [redacted]s are the [redacted]s have ever been in. Walking on [redacted] for hours has given me numerous bodily issues.

Comments About Sport  
Team Success

[REDACTED]

Fueling needs to be drastically improved, other issues will be fixed with new facility

Better attitude need less ego more good guys

[REDACTED]

Our locker room is like a home for teams and when we show up each morning to a very below average locker room with showers that have flies and bugs everywhere and couches that are years and years old with a tv from 1990 that doesn't even work, it makes us feel unappreciated. It is just hard to have the right mindset when we show up to a place that isn't very suitable or livable. Also, as a [REDACTED] [REDACTED] fuel is very important for us and we rarely have opportunities to fuel properly before a [REDACTED]

[REDACTED]

new training facility would be very nice and beneficial to the team's success. I believe I have caught word that there main be designs in process! the [REDACTED] gets much to hot in the summer, cold some days in the winter before the heater kicks on. These training environments are incredibly unsafe for the sport o [REDACTED]

We could have a better facility and be better at recruiting top tier recruits

[REDACTED]

The privacy issue which is being addressed with the new locker room does not address the present. Constantly there are high school wrestlers allowed into our locker room, especially when our team is away on [REDACTED] Shoes go missing, which is extremely inconvenient for us. We are just told to put things in our lockers, but we should feel safe to leave things in front of our locker even if it is on the ground. We should not feel as if our property could be used or go missing.

Lack of a proper head coach. Lack of athletic training gear.

Don't get proper gear to account for freezing temps at races. Locker room is very gross.

Comments About Sport  
Team Success

[REDACTED]

In terms of players on the team, we have everything we need to be successful. However, numerous coaching decisions are made on a daily basis that restrict our players' potential.

It would benefit us to have our own indoor practice facility. Until that occurs, one thing that could help us win is a coach who knows and understands her players and knows how to motivate them to get the best out of them. We have so much potential on our team but our potential is hindered because our coach verbalizes that she doesn't trust certain players in their starting positions, threatens scholarship reductions based on performance, and attacks peoples character based on performance. The examples mentioned cause players to lose interest and desire to play for the team because of the way they are being treated. The lack of desire to want to be there reduces the drive a..

[REDACTED]

I think we just need more talent, we have the resources and a great coaching staff but our lack of size and athleticism hurt us in Big 10 play

[REDACTED]

A better training facility, more support from administration, social media is great but marketing could be a lot better

Better medical care

Better training room facility in gym/provide our own equipment instead of borrowing from other sports (like BFR to do rehab at the gym and not have to go all the way to the stadium to borrow footballs, normatec that we can travel with instead of having to borrow soccers, etc). Better locker room - we asked for a couch at the start of 2017, still haven't gotten it, not enough lockers for everyone on the team, got a tv mounted but it doesn't work. Facility with air conditioning - too hot to train in the summer

[REDACTED]

Facilities, recovery equipment

[REDACTED]

-A [REDACTED] teammates that actually care about the sport

Sport

██████████

A ██████████ including platform.

██████████

The basemen ██████████ looks embarrassing and like a storage unit for other sports or classrooms. I do Not take pride in walking through the basement on my way to the training room or to the locker room

██████████

The facility is outdated, a lot of equipment cannot be used because of classrooms nearby. Exercise equipment in the ██████████ constantly does not work.

We have out of date facilities that make it hard to recruit and train to the best of our abilities. Sometimes it is so packed inside the practice room it is difficult to practice because we don't have enough space. One time this year I got hurt and almost missed a dual due to this issue. I rolled my ankle bumping into someone behind me due to the lack of space in the room.

Our facility ██████████ is not nearly as nice as other Big Ten programs. We lose great recruits because of our sub-par facility.

New ██████████ room/ our own facilities. We are long overdue and you know it.

Very knowledgeable on how to achieve maximum effects for [redacted] layers specifically.	Great guy truly cares about the well being of his players	The training was not good and relevant to my training, but they are good people.	[redacted] was truly a great strength and conditioning coach. It was so helpful that he knew gymnastics so well and was able to understand what our bodies were going through and what we needed. 10/10!	[redacted] like the [redacted] g coaches, is a great guy and has a wealth of knowledge when it comes to strength and conditioning. He knew how to scale workouts based on practices and competition and would help and accommodate to people with injuries.

## Practices

## Practice Comments

[Print Comments](#)

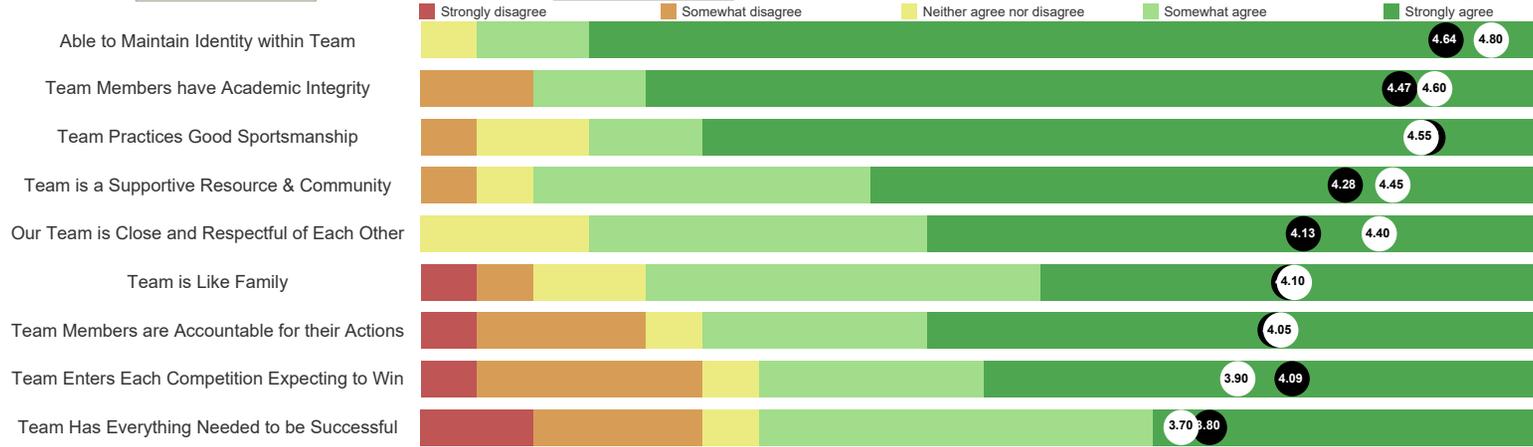

Practices are too long, and not efficient. The body of work could easily be done from 8-10 but it usually is 6:30-9:50	Efficient and organized. Does a good job of everyone getting quality reps, especially in the fall	Sometimes seemed unorganized. A little more structure would be helpful even for just team mentality of taking practice more seriously.	Practices were sometimes very hard, which there is times for. But sometimes they were too hard based around other workouts we had as well, i.e. strength and conditioning.

## Improvements to Team Culture

[Print Comments](#)

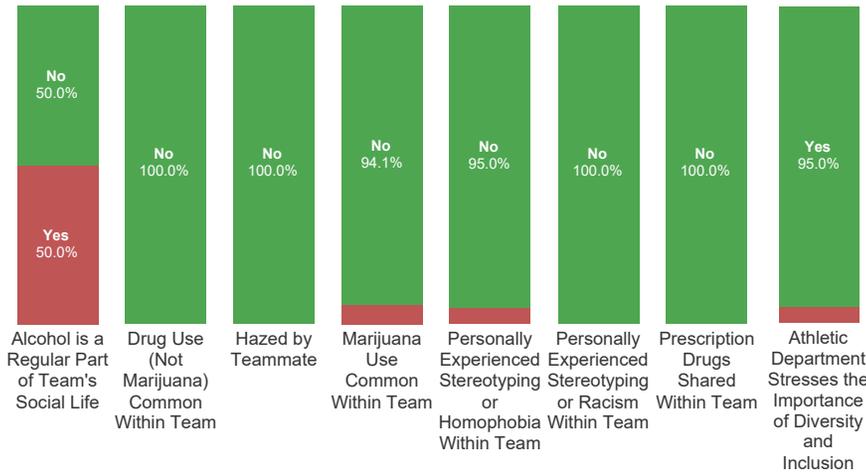

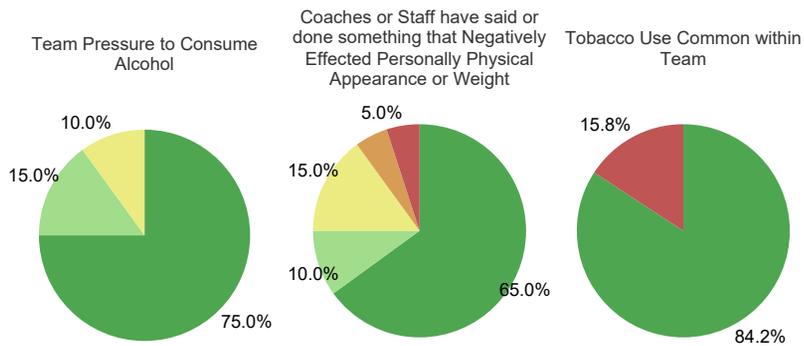

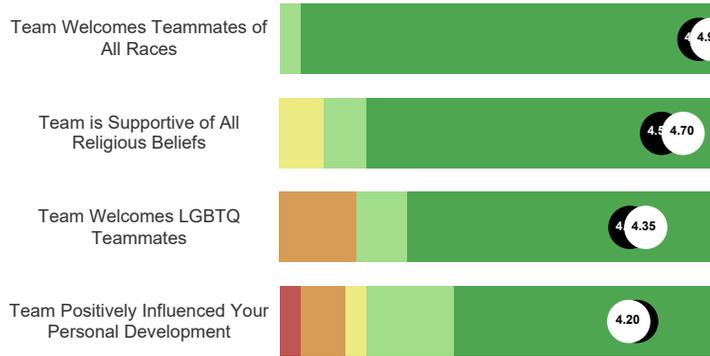

Coaches that give athletes the opportunity to build off their style of training, allowing them to focus on performance. If I had been able to practice at a reasonable hour I could have performed as an athlete, however Coach [redacted] is inflexible, which is both a great thing and bad thing for the team. Collaboration could have produced results.	we don't have the numbers to be either a [redacted] or track team. The best teams in the Big Ten have team sizes that dwarf ours, and that is often the difference between getting first and eighth a [redacted] ke that.	Our facilities are lacking. I don't think our facility is on par with most programs of its caliber in and outside of the big 10. As a division one program, this directly affects our recruiting ability. Also, there were many injuries this year which seemed to be caused by lack of space. I think it can be hazardous at times when [redacted] in this environment. In my opinion a larger space	The showers were often very dirty, not due to us though. Compared to other schools the facilities aren't as good either, but they are still great and get the job done.	Medical staff does a poor job at injury prevention and rehabilitation. Athletes continue to get hurt with the same injuries all the time. Recruiting is important but don't. Sacrifice your starters careers because you want to keep a promise you made on a recruiting visit or Bc they are your recruit. It's unfair for the student athlete.	More scholarships [redacted] roster
We don't even have enough people on out team to compete with other B1G programs in [redacted]

## Social Issues Comments

[Print Comments](#)

Going out with your team is an important part of forming a bond. Specific people may abuse it, but for the most part it seems that it is used appropriately to grow closer as a group.

There is a pretty excessive drinking culture on our team. While they were able to stick to dry season, the out of season activity is pretty intense. While I was not pressured by it since being an older teammate, I wish it could be understood how detrimental that type of activity is to their performance and so many other parts of their lives. They've heard it from the nutritionists several times, but they don't seem to care.

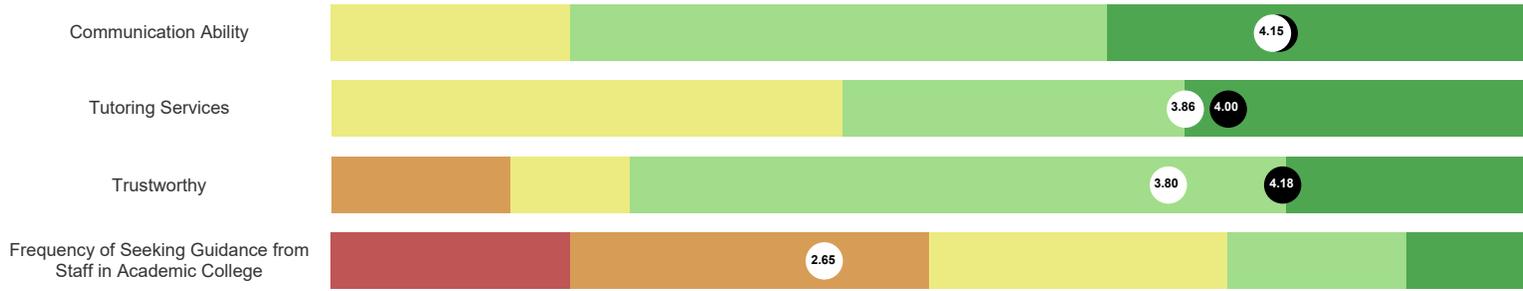

It could have been better. Some guys clearly wanted to be there and be champions and others weren't and the rubbed off on others created a negative culture, one that wasn't helping the team as a whole get better.

<p>Practices are too long, and not efficient. The body of work could easily be done from 8-10 but it usually is 6:30-9:50</p>	
	[REDACTED]
<p>Efficient and organized. Does a good job of everyone getting quality reps, especially in the fall</p>	
	[REDACTED]
<p>Sometimes seemed unorganized. A little more structure would be helpful even for just team mentality of taking practice more seriously.</p>	
	[REDACTED]
<p>Practices were sometimes very hard, which there is times for. But sometimes they were too hard based around other workouts we had as well, i.e. strength and conditioning.</p>	
	[REDACTED]
<p>Going out with your team is an important part of forming a bond. Specific people may abuse it, but for the most part it seems that it is used appropriately to grow closer as a group.</p>	
	[REDACTED]
<p>There is a pretty excessive drinking culture on our team. While they were able to stick to dry season, the out of season activity is pretty intense. While I was not pressured by it since being an older teammate, I wish it could be understood how detrimental that type of activity is to their performance and so many other parts of their lives. They've heard it from the nutritionists several times, but they don't seem to care.</p>	
	[REDACTED]
<p>It could have been better. Some guys clearly wanted to be there and be champions and others weren't and the rubbed off on others created a negative culture, one that wasn't helping the team as a whole get better.</p>

Strength Coach	<p>Very knowledgeable on how to achieve maximum effects fo [REDACTED] layers specifically.</p>
	<p>Great guy truly cares about the well being of his players</p>
	<p>The training was not good and relevant to my training, but they are good people.</p>
	<p>[REDACTED] was truly a great strength and conditioning coach. It was so helpful that he knew [REDACTED] so well and was able to understand what our bodies were going through and what we needed. 10/10!</p>
	<p>[REDACTED] is a great guy and has a wealth of knowledge when it comes to strength and conditioning. He knew how to scale workouts based on practices and competition and would help and accommodate to people with injuries.</p>
Suggestions for Athletic Director	<p>Trea [REDACTED] ke it is important. We are way behind the rest of the Big Ten in facilities, especially the stadium. Make an effort to make our [REDACTED] team important. We are one of the highest achieving teams on campus in a highly competitive sport.</p> <p>Please upgrade our facilities, specifically our stadium. Our stadium is 30 years in the past, we have been passed by almost every other school in our state alone, not to meanton the conference.</p>
	<p>Keep doing what you are doing. People on the outside don't understand what you've done to make us relevant again. Thank you for the steps you've taken so far to improve our athletics.</p>

Suggestions for Athletic Director	██████████	keep asking for more from everyone, whether it be athletes, donors, everyone involved in Illinois athletics.
	██████████	We will talk about it in my meeting
		I don't have any. He's done such an amazing job and made our team feel important and valued. Having been here under the previous athletic direction, I cannot tell you how much positivity and hope he has brought to this community and athletic program. Thank you!!!
	██████████	Try to show more concern and care for non-revenue producing sports.
Team Success	██████████	Helpers for our trainer, better weight gaining resources like the smoothies football gets.
		Our facilities are frankly embarrassing. Easily in the bottom 3 of the Big10 and possibly the worst. The majority of D1 schools in our own state have MUCH better facilities than we do. Our stadium is a glorified high school stadium with a nice turf surface. I have had players from other schools come up to me and ask me "this is really where you guys play?". That is embarrassing, I love this university, and I know this program has the ability to be elite, but we need at to have average facilities at least. The new indoor facility will go a long way, but the fact that we ██████████ inside in the state of Illinois at our own field until 2021 is preposterous. The Chicagoland area is a powerhouse fo ██████████
	██████████	Medical staff does a poor job at injury prevention and rehabilitation. Athletes continue to get hurt with the same injuries all the time. Recruiting is important but don't. Sacrifice your starters careers because you want to keep a promise you made on a recruiting visit or Bc they are your recruit. It's unfair for the student athlete.
	██████████	More scholarships on ██████████ roster

Team Success

[REDACTED]

We don't even have enough people on our team to compete with other B1G programs [REDACTED]

we don't have the numbers to be either a championship [REDACTED]. The best teams in the Big Ten have team sizes that dwarf ours, and that is often the difference between getting first and eighth at a meet like that.

Coaches that give athletes the opportunity to build off their style of training, allowing them to focus on performance. If I had been able to practice at a reasonable hour I could have performed as an athlete, however [REDACTED]'s inflexible, which is both a great thing and bad thing for the team. Collaboration could have produced results.

[REDACTED]

Coaching has lost us several games this season. We have the tools as players to win these games and coaching has lost games for us.

[REDACTED]

more food in the locker room

[REDACTED]s

Our current facility [REDACTED]s not able to support the equipment and resources that would put us at our best.

[REDACTED]

Our facilities are lacking. I don't think our facility is on par with most programs of its caliber in and outside of the big 10. As a division one program, this directly affects our recruiting ability. Also, there were many injuries this year which seemed to be caused by lack of space. I think it can be hazardous at times when [REDACTED] in this environment. In my opinion a larger space would solve this issue.

The showers were often very dirty, not due to us though. Compared to other schools the facilities aren't as good either, but they are still great and get the job done.

Time Commitments

Too much time is spent. Creates burnout. I would have been better training myself
