██████████ is a great student and is on ██████████ way to ██████████ had very good insights on the program and department. ██████████ had very good comments on the way ██████████ was treated during ██████████ ██████████ thought highly of the entire training staff. ██████████ had great things to say about Strength & Conditioning as well as SAAS...high praise for both ██████████ and ██████████ as well as ██████████ day to day trainer ██████████

██████████ had mostly good things to say about facilities with high marks for the ██████████ and the ██████████ Had some issues with cleanliness of the locker rooms. ██████████ thought the gear provided was good only suggestion was more travel gear as it was hard to stretch the gear on a three-day trip.

██████████ had good things to say about the coaching staff. ██████████ really felt that ██████████ strengths were the way ██████████ cared about the players and wanted them to succeed. Coach's door was always open to talk and would always call or text to see how the players were doing. ██████████ also had some good insights on ██████████ difficulties. ██████████ being here ██████████ saw a lot in the program and felt that discipline and not having the same rules for each player created issues. ██████████ told me they were not with ██████████ directly but ██████████ saw it take its toll on others. ██████████ feels coach take advantage of coach's nature and challenge ██████████ and that created some toxic atmosphere. ██████████ feels that coach tried to make everyone happy and that backfired and led to issues in the team and its performance.

██████████ had great things to say about coach ██████████ and said ██████████ always went above and beyond in coaching and striving to make you a better player.

██████████ had very good things to say about administration. ██████████ really enjoyed that the staff was interested in the team and what they and ██████████ were doing. When ██████████ walked through the halls and ██████████ knew people and people knew ██████████ and interacted that meant a lot. ██████████ also likes the fact that some positions have female leadership and sees that growing.

██████████ thought the new programs especially the life after sport program were very good. ██████████ wished more athletes would get involved.

UNIVERSITY OF NEVADA LAS VEGAS

Other Remarks:

██████████ is a great student and was able to stay home and play for UNLV in front of family. ██████████ had great things to say about academic support, strength and conditioning and athletic training...stressing that ██████████ felt a very personal touch from all the staff ██████████ worked with in those areas. ██████████ had good things to say about facilities and equipment, liked the locker room renovation completed last season.

██████████ had great things to say about the coaching staff and really felt that they cared about ██████████ as a person and more than just an athlete. Paris felt a strong commitment from the department especially while going through some on the court issues. ██████████ rated ██████████ overall experience at UNLV and the Athletic Department very high and would return.

Personally having been able to spend time with ██████████ and watch ██████████ grow as a person has been rewarding. ██████████

██████████ will be attending graduate school ██████████ at ██████████
