

GOLF HEAD COACH & PROGRAM FEEDBACK  
2018-19 GOLF SEASON

Positives	Areas of Improvement
<p>Each young man conveyed the overall experience was outstanding and it was easy to see the overall strength of the relationships the guys had forged with each other over four years.</p> <p>The kids are very much aware that the alumni pay for the program. They are appreciative of the great support that surrounds the program.</p>	 <p>The addition of swing simulator and indoor putting green were welcome additions. However, the assigned location in CMS to Golf to house the simulator is not satisfactory as the roof is too low and impacts full follow through on their swings.</p>  <p>Kids are appreciative of the Simpson Center refueling station. However, on MWF after their lifting sessions, they can never take advantage of it since the Simpson Center refueling station isn't open in the early AM. The Golf team has to lift from 6-7 AM.</p> 

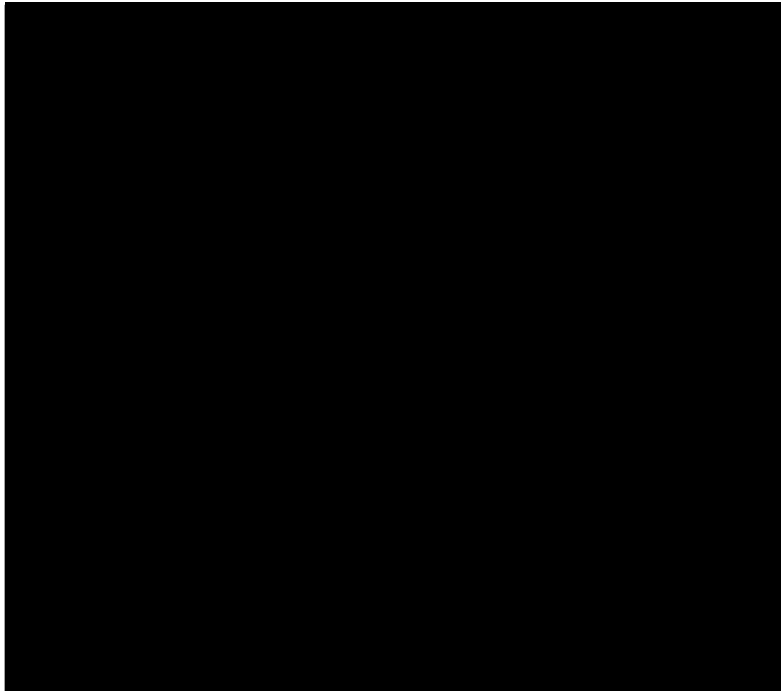

*what can we do?*
